

- Community Meeting -

The Future of Butler's Pond

Date: August 17, 2016

Time: 7:00 PM

Location: Coddington Hall

34 Coddington Street, Quincy

AGENDA

Community residents are invited to attend this important meeting to learn about progress towards restoring and preserving Butler's Pond and to understand next steps. Stormwater runoff is a primary pollutant and cause of the Pond's degradation. City DPW officials and departmental consultant engineers will be present to discuss possible design changes to the Pond to improve the management of stormwater runoff.
