## **Hancock Cemetery Background Information**

Hancock Cemetery is the City's earliest and longest used cemetery. It is the only surviving 17th-century component in Quincy Center. It possesses integrity of location, design, materials, and workmanship. It is historically significant to the growth of Quincy Center, the lives of families of regional and national repute, and the development of early gravestone art in New England. Family tombs which are built into the banked sides of the cemetery date primarily from the early 19th century.

The Hancock Cemetery plays an active role in both the lives of Quincy residents as well as the local tourism industry. As recently as October 31, 2009 the Quincy Historic Society gave a free, guided tour of the Cemetery. The tour was attended by over 120 persons. The Cemetery is a listed stop on the Quincy Historic Walking Trail.

The Hancock Cemetery Street fence is 205 feet long cast iron fence and is attached to the top of a granite wall. It has two double-swing gates and two decorative arches above the gates. The date the fence was installed is uncertain, at the earliest it dates back to 1844, at the latest 1917.

All questions regarding this bid should be directed to Kathryn R. Hobin, Purchasing Agent through fax: 617-376-1074 and email: [khobin@quincyma.gov](mailto:khobin@quincyma.gov) and cc: to [kimtrillcott@quincyma.gov](mailto:kimtrillcott@quincyma.gov) Questions will be accepted until July 6, 2015 at 12:00 p.m.

## **MINIMUM CRITERIA/SCOPE OF WORK**

Vendor must remove the Hancock Street fence, both gates, and both arches to be treated off-site. Awarded Contractor must have worked on historic iron gates and fences that are listed on the National Register of Historic Places. Contractor must have extensive experience creating patterns for castings and be able to design and create 20 or more patterns.

The workspace where the fence, arches, and gates are removed to must be secure from theft and contain smoke alarms and fire suppression equipment. The space must be available for review prior to transporting the gate and fences while the work is underway.

The project should be completed within 90 days.

Contractor must prevent damage to the fence, gates, arches, retaining walls, granite piers, and surrounding area by taking all necessary precautions.

Materials shall be used only at the manufacturer's recommended temperature and humidity tolerances. In case of conflict between standards on the project, the more stringent shall apply.

The contractor must provide a detailed history of the firm/applicant indicating a well-established firm/applicant, with proximity and availability of staff to complete work. The

proposal provides evidence that the firm/applicant is both large enough and diverse enough to expedite all work.

Thorough photographic documentation before, during and after the project; Document with digital photographs in not less than six (6) megapixels each portion of the fence, two double swing gates, two decorative arches, four granite piers, and the granite retaining wall that will be affected by this scope of work. Document the above listed parts of the Hancock Cemetery historic fence restoration project throughout the entire restoration process; including before, during and after treatment. This includes photographing the items prior to removing them from their current location, after they've been sand blasted, after they've been repainted, and after they've been reinstalled. At the conclusion of the project all photos taken from before, during and after treatment shall be submitted with the project completion documentation to the Planning Department.

### **SPECIFICATIONS/SCOPE OF WORK**

1. Vendor must remove the Hancock Street fence, both gates, and both arches to be treated off-site.
2. Remove existing paint, which likely contains lead, according to all relevant State and Federal laws governing the removal of lead paint.
3. Replace all pieces of the fence, gates, and arches that have corroded past 85% of their original size.
4. Replace all pieces of the fence, gates, and arches that appear to be flawed, either from faulty past restoration attempts, general wear since they were first installed, or for any other reason.
5. Create patterns for all missing pieces that require patterns (for example, not a simple cylindrical fence post), to be turned over and owned by the City at the end of the project.
6. Also please provide an extra twelve (12) urns for storage by the Cemetery Department for use in the future should an existing urn need replacement after completion of this project.
7. Restore function of the lock mechanism of both gates, even if the gates cannot be restored so as to close as they were originally intended. In other words, the individual parts of the lock mechanism must be returned to a functioning state, but do not have to be able to function together to lock the gate, since whether the gate will be able be closed at the end of restoration remains uncertain.
8. Restore the arches assuming they were originally intended to be flat, not concave, as they appear to be now when viewing them from Hancock Street. We believe this concavity is a result of warping over time.
9. Cast or otherwise create the replacement pieces out of stainless steel.
10. Paint the original fence, gates, and arches and all replacement parts with the following paint system (glossy black): one coat zinc rich primer, one coat hi-build epoxy, and one coat aliphatic urethane finish paint or owner approved equal. (if the selected contractor has another preferred paint system, it must be approved by Kara Chisholm, Quincy Assistant Planner 617-376-1050, prior to use on any part of the Hancock Street fence, gates, or arches).
11. Reinstall the fence, gates, and arches at the original site.

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the “Wage Request Number” on all pages of this schedule.
- An Awarding Authority must request an updated wage schedule from the Department of Labor Standards (“DLS”) if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
- The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or any sub-contractor.
- All apprentices working on the project are required to be registered with the Massachusetts Division of Apprentice Standards (DAS). Apprentice must keep his/her apprentice identification card on his/her person during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **If an apprentice rate is not listed on the prevailing wage schedule for the trade in which an apprentice is registered with the DAS, the apprentice must be paid the journeyworker's rate for the trade.**
- The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule. Awarding authorities are required to request these updates no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor. For multi-year CM AT RISK projects, awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. Contractors are required to obtain the wage schedules from awarding authorities, and to pay no less than these rates to covered workers. The annual update requirement is not applicable to 27F “rental of equipment” contracts.
- Every contractor or subcontractor which performs construction work on the project is required to submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee’s name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. A sample of a payroll reporting form may be obtained at <http://www.mass.gov/dols/pw>.
- Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
- Employees not receiving the prevailing wage rate set forth on the wage schedule may report the violation to the Fair Labor Division of the office of the Attorney General at (617) 727-3465.
- Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and criminal penalties.
