

## CITY TRAFFIC ENGINEER

The City of Quincy, a growing community just south of Boston with a population of over 93,000, is seeking a highly motivated and energetic individual for the position of City Traffic Engineer. The City Traffic Engineer is responsible for all of the planning, engineering, construction and maintenance of all traffic control devices including traffic signals, traffic signs and pavement markings throughout the City. This professional also leads the Traffic and Parking Division employees including the parking operations manager, general foreman, senior traffic engineering aide and 14 highly skilled, experienced, trained, certified and licensed traffic and parking professionals and works closely with staff of the Department of Public Works.

The successful candidate should have an understanding of community traffic issues and concerns, good public speaking, presentation and communications skills and a thorough knowledge of traffic engineering standards, programs and creative solutions. Knowledge of the federal Manual on Uniform Traffic Control Devices (MUTCD) and Massachusetts Department of Transportation Standards and procedures is required.

A Bachelor of Science Degree in Engineering is required and Massachusetts Licensure as a Registered Professional Engineer is preferred. 5+ years of management experience required. Salary range, commensurate with experience, is between \$80,000 and \$ 101,000. The City of Quincy offers a highly competitive benefits package.

Applicants should send resume to Helen Murphy, Director of Human Resources, Quincy City Hall, 1305 Hancock Street, Quincy, MA 02169 or email to [hmurphy@quincyma.gov](mailto:hmurphy@quincyma.gov). Application deadline: Wednesday, September 3, 2014.
