ADDENDUM No. 1

To

Design/Build Pre-Engineered, Pre-cast Restroom Building

RE: BID DUE : April 14, 2016 @ 11:00 a.m.

BID/RFP TITLE: Design/Build Pre-Engineered, Pre-cast Restroom Building

The following question has been raised by a potential bidder and the City's reply follows.

Question: Our method of construction would be grout-filled CMU block rather than cast concrete. The colonial facade would then be installed over the CMU block. Is this an acceptable construction method for this project?

Answer: *No, we want to stay with the cast concrete as the specifications call for.*

PLEASE NOTE THE FOLLOWING TWO CHANGES:

- The City of Quincy has added a non-mandatory site walk thru on Friday, April 1st, 2016 at 10:00 a.m. at 16 Nevada Road, Quincy, MA 02169
- Please disregard the previous "Price Proposal Bid Form" and replace and use the new attached "Price Page".

Thank you,

Thank you; please acknowledge this addendum on your bid form
