Executive Summary for Document/Agenda Management Solution

The City of Quincy's City Council is looking to digitally automate the task and manage the process of preparing, publishing, archiving and retrieving its recurring agenda meeting documents. They seek to replace the existing manual and labor intensive process with one that will digitally capture all the agenda element items - including Word documents, Excel spreadsheets, facsimiles, emails, images and graphics. Once captured, these elements will be indexed/searchable and all modifications to them will be tracked by an automated version control process.

In essence, the Council seeks to acquire a solution to serve as the single repository for all finished agendas, minutes and supporting documents. When complete, the Council will have access to any and all information pertaining to their business in a digital fashion. They will be able to access this information from any remote PC or digital tablet. It is envisioned Councillors will all be equipped with tablets and that meetings will be conducted referencing the agenda and supporting materials on their tablets.

In addition, minutes for each meeting will be automated using this system. As the Council moves through each agenda item, the Clerk of Committees will have electronic tools at his or her hands which will time-stamp those items and keep track of voting results.

The Council also desires that electronic version of the agenda (and all the supporting documents) be accessible to its residents on the City's Website.

The Council recognizes that the functionality it is looking to implement is one that other departments in the City may be interested in utilizing. Thus, the chosen solution approach should be one that is Enterprise in nature, scalable and appropriate to the rest of the City's document management needs. Further, such a system should be supported by a reputable, established and full-service vendor who has proven success in this application arena, with a strong city government customer-base.

As existing City IT resources are limited, the chosen solution should require a minimum of their support, although it is understood that the system must reside within, and be compatible with the architectural environment the City has in place, and that some IT resources will be needed to assure that this is the case.

This project will require competent and committed project management, both from the vendor side as well as the City's side. The Council envisages retaining a qualified outside consultant for this purpose.

Mayor Thomas Koch
Quincy City Hall
1305 Hancock Street
Quincy, MA 02169

Dear Mayor Koch:

I am writing to inform you that the Public Landing Pier located adjacent to the Hough's Neck Maritime Center at 137 Bayview Avenue in Quincy was severely damaged by sea ice during this past winter season. In its present damaged state, the Public Landing Pier is a danger to the Public. I recommend that the Public Landing Pier Access Point be immediately secured until emergency repairs can be completed.

After consulting with Mr. Carlos Pena of CLE Engineering with a local marine contractor, the following emergency repairs were identified as needed to be completed in order for the Public Landing Pier to be safely used during the Boating Season this year:

- Install shoring and jack up pier deck carrying beams to the former elevated positions
- Remove and replace two sets of wooden load bearing support pilings
- Remove, replace, and/or sister load bearing wooden cross section members
- Remove and replace as needed deck planks
- Repair Gangway Attachment Connection Cross Section

I am requesting that an emergency appropriation in the amount of \$52,969.53 be submitted by your office to the Quincy City Council in order to get this Maritime Critical Infrastructure back in service for use by the Public and by Maritime Emergency Response Agencies. Your careful consideration of this request is greatly appreciated.

Sincerely,

Paul Keenan
Chief of Police

ORDER NO. 2015 -

ORDERED:

May 18, 2015

Upon the request of the City Solicitor, and with the approval of his Honor, the Mayor, the sum of Thirty Thousand (\$30,000.00) to be transferred within the Workers' Compensation budget accounts, as follows:

From Medical Account – 0191254 – 570703

To Payroll Account – 0191251 - 510173

The purpose of this transfer is to meet the reasonably anticipated Workers' Compensation payroll expenses through the balance of the fiscal year.

Memo

TO: Mayor Thomas P. Koch

CC: James S. Timmins

RE: Request to Transfer Funds between Workers' Compensation accounts

DATE: April 30, 2015

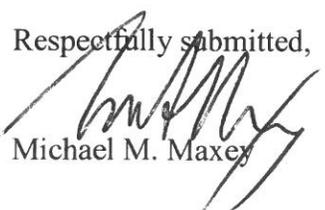

Based upon the current weekly cost of providing workers' compensation wage payments to our injured employee's it is anticipated that we will need an additional \$30,000 to meet those obligations through the end of this Fiscal Year. It is anticipated that without these funds we will not be able meet our payroll for the last two weeks in June.

Fortunately, at this point we have more than enough funds in the Medical account to meet expected claims and expenses through the end of this fiscal year.

Accordingly, we are requesting approval to transfer \$30,000 from the medical account (Account # 0191254570703) to the payroll account (Account #0191251510173).

Please let me know if you need anything further from this office and thank you for your assistance.

Respectfully submitted,

Michael M. Maxey

ORDER NO. 2015 -

ORDERED:

May 18, 2015

Be it ordained by the City Council that the Quincy Municipal Code is hereby amended as follows:

Adding as Section 8.31 to the Quincy Municipal Code the following Pharmacy Posting Requirements for Municipal Prescription Drug Disposal Facilities

Pharmacy Posting Requirements for Municipal Prescription Drug Disposal Facilities

All pharmacies shall post notice of all permanent municipal disposal locations in a visible location near pharmacy check out and/ or consultation windows. All postings may either reference proper disposal of prescription drugs and associated risks of prescription drug abuse or be supplemented with visible access to literature referencing risks and additional disposal options.
