ADDENDUM NUMBER 2

RE: BID DUE: June 27, 2019 @ 11:00 A.M.

BID/RFP TITLE: Quincy’s Dog Park

The following questions were raised by a potential bidder. The City’s responses to the questions are as follows:

Q1. Do we need to include installing back flow preventer (s) for the 3 dog water bottle filling stations?
A1. A back flow preventer will be required. The city will be installing the preventer at the point of connection to the city system.

Q2. Loaming and seeding the perimeters within the area of work is the responsibility of the contractor, correct?
A2. Loaming and seeding will be required on disturbed areas of the site up to 20’ outside of the fenced area and perimeter of the parking lot.

Q3. Can we install a silt sock at the perimeter in lieu of the silt fence?
A3. Silt sock is acceptable for silt fence.

Q4. All testing (compaction etc.) is by The City of Quincy, correct?
A4. Yes any testing will be done by the city.

Thank you.

PLEASE ACKNOWLEDGE THIS ADDENDUM IN YOUR BID, AS IT IS NOW A PART OF THE BID.
